

Società Italiana di Studi sulla Scienza e la Tecnologia (STS), V Convegno Internazionale su "A Matter of Design. Making Society through Science and Technology", Politecnico di Milano, 12-14 giugno 2014.

*"The conference is articulated in 24 autonomous thematic sessions (tracks), each one focussing on a different topic and organized in 6 main areas of interest. Abstracts with a maximum length of 500 words, unless otherwise indicated in the specific track. They must include title, author's name, affiliation, e-mail address and should be sent in the language of the track in which you wish to participate. In the case of bilingual sessions, the abstract should be written in the language (Italian or English) in which you want to present your paper"*
